MESSAGE FROM THE VICE-RECTOR

The University of Cyprus has already entered its tenth year of functioning since its first faculty members were appointed and its first students were accepted. The University aspires to establish itself as a research-oriented institution that combines research with teaching in order to promote knowledge and educate highly qualified specialists and professionals. This volume, the third, presents the research programmes and publications of the academic staff of the University during the period 1999-2001. The first volume covered research and publications for the period 1992-1995 and the second one the period 1996-1998.

The work presented herein attests to the University's emphasis on research. In the three-year period covered by this volume, the 140 faculty members listed in the volume published 118 books, 204 chapters and 986 papers. In the first period 1992-1995, the corresponding figures were 80 books, 25 book chapters and 777 papers by 107 faculty members. In the period 1996-1998 the figures were 100 books, 140 chapters and 849 papers by 132 faculty members. It is obvious that the output of papers in relation to staff members places the University of Cyprus in the class of very productive research institutions. It is also clear that the research productivity of the last three years has increased relative to the past.

It must be noted that a large part of this research contributes to what is called "pure science"; however, many of the studies contribute to applied research focussing on the understanding and solution of practical problems we face in Cyprus and the region. Through these programmes the University contributes directly to the improvement of the quality of life and to the sustainable economic growth of Cyprus.

Research programmes are supported by both state and international funding agencies. The University succeeded in attracting 2,08 pounds of external funding for each pound of state funding. This relation was 1:1 for the period 1992-1995 and 1:1,4 for the period 1996-1998. This indicates that research in the University is profitable at many different levels, and that our faculty have been very efficient in leveraging national funding. In addition, it indicates that teaching at the University is continually enriched by its ongoing research. This process of cross-fertilization between teaching and research has intensified with the development of postgraduate studies at the University of Cyprus and will stay steadily on course, in order to contribute to the establishment of Cyprus as an international centre of excellence in science, education, and culture.

Professor Andreas Demetriou
Vice-Rector
Chairperson, Research Committee

INTRODUCTION

This publication lists for the third time the research activity of the University of Cyprus. It includes research undertaken between 1999-2001.

The book presents, for each member of academic staff, information that is directly or indirectly related to research. Staff are listed in alphabetical order within departments. Both the faculties and the departments within each faculty appear in alphabetical order.

The information found in the research profiles of the academic staff is based on data from a questionnaire that was directed to all academic members of staff.

The publications of the academic staff make up a sizeable part of the book. Only published articles (in journals or conference publications) are included. Articles that are “in press” or “forthcoming” are not included. Presentations given at conferences, but not yet published, are also not included.

A very small number of publications published in 1998 are included here because they were omitted from the 1996-1998 volume. These are marked with an asterisk (1998*).

The book contains six appendices:

Appendix I lists the Cypriot institutions with which the academic staff cooperate in research.

Appendix II lists the universities and research institutions internationally with which the academic staff cooperate in research.

Appendix III presents institutions in Cyprus and abroad which have funded research projects of members of the academic staff.

Appendix IV lists organisations to which the academic staff of the University offer consultancy services.

The data comprising these appendices were produced from the personal research profiles of the members of academic staff listed in this publication and, hence, do not constitute a full picture of the research collaboration of the University of Cyprus.

Appendix V presents a keyword index referring to the research interests of the members of academic staff listed in this publication.

In **Appendix VI** there is an index of academic staff in alphabetical order by surname.

RESEARCH AT THE UNIVERSITY OF CYPRUS

Original research is one of the primary activities of the academic staff at the University of Cyprus. This research may involve the following categories of research associates:

- Undergraduate Students: The research work of these students is not usually expected to be original. However, students are trained in the methodology and techniques required for research in their field. They may also be involved in original research.
- Postgraduate Students: The research work of these students is usually integrated into the ongoing research programmes and it is, therefore, primarily original.
- Research Assistants: On appointment they should already be familiar with their area of research and are employed in programmes financed by the University or externally.

The Research Committee

University policy on research is to a large extent determined by the Senate under the advice of the Research Committee of the University. The Research Committee coordinates all procedures to approval, funding, preparation, realisation, monitoring and evaluation of research at the University, and is responsible for the expansion of the University's research capabilities and for the promotion of research in general.

Research Programmes and Activities

A limited number of research programmes (8 at the end of 2001), and numerous research activities, are funded from the University budget.

The Research Programmes are usually of three-year duration and are subject to the approval of the Research Committee. Prior to approval, external evaluation by at least two independent evaluators is required.

They are usually collaborative projects, requiring the employment of postgraduate research assistants, and, where necessary, the acquisition of research equipment. (In this book, the research programmes appear in the personal profiles of the academic staff, under the heading “Research Programmes”).

External Funding

A substantial part of the research carried out at the University is supported by international funding agencies including the European Union and other more specialised foundations.

Research Collaboration in Cyprus

Many programmes are carried out in collaboration with various institutions in Cyprus. These generally focus on the social needs of the country.

(In this book, they appear in the academic staff entries under the headings “Research Collaboration in Cyprus”, “Funding of Research Projects” and in Appendices I and III).

International Research Collaboration

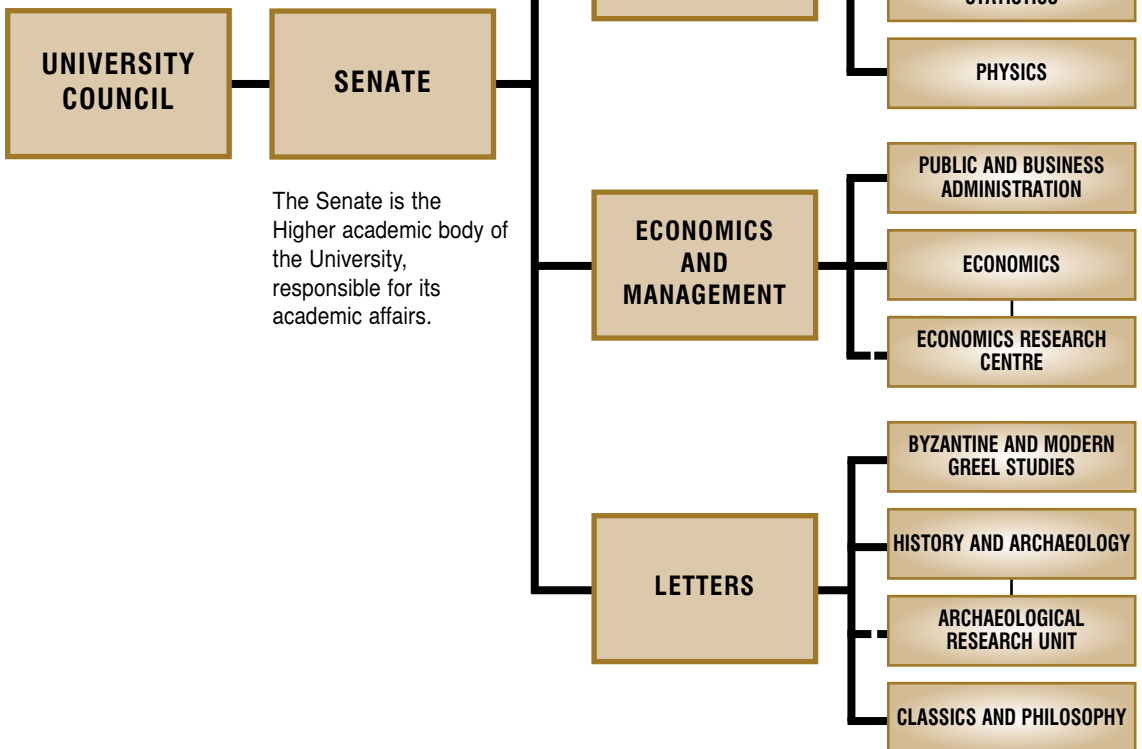

The academic staff of the University of Cyprus participate in a wide variety of international research projects which involve partners and peers from many different countries, universities and research institutions.

(In the book, this area of work appears in the personal entries under the headings “International Research Collaboration”, “Funding of Research Projects”, and in Appendices II and III).

Finally, this picture is complemented by the prefaces of the department chairpersons that come before the lists of departmental personal profiles.

STRUCTURE OF THE UNIVERSITY OF CYPRUS 2002

The University Council is responsible for the management and control of the administrative and financial affairs of the University and its property. It is also responsible for the enforcement of the University of Cyprus Law.

PROGRAMMES OF STUDY

The University consists of four faculties: The Faculty of Humanities and Social Sciences with four departments, the Faculty of Pure and Applied Sciences with four departments, the Faculty of Economics and Management with two departments and the Economics Research Centre, the Faculty of Letters with three departments and the Archaeological Research Unit.

The table below lists the departments and the degrees they offer..

DEPARTMENT	UNDERGRADUATE DEGREE	POSTGRADUATE PROGRAMME
EDUCATION	Education - Preschool Education - Primary School Psychology	Cognitive, Developmental and Educational Psychology** Educational Leadership and Curriculum Development*** Learning in Natural Sciences*** Mathematics Education*** Pedagogical Sciences*
FOREIGN LANGUAGES AND LITERATURES	English Language and Literature French Language and Literature	Applied Linguistics* English Literature and Comparative Cultural Studies* Foreign Languages and Literatures**
SOCIAL AND POLITICAL SCIENCES	Sociology Political Science	Criminology* Political Science** Sociology**
TURKISH STUDIES	Turkish Studies	Turkish Studies***
CHEMISTRY	Chemistry	Chemistry***
COMPUTER SCIENCE	Computer Science	Advanced Information Technologies* Computer Science**

PHYSICS	Physics	Physics***
ECONOMICS	Economics	Economic Analysis* Economics*** Monetary and Financial Economics* Economics and Public Policy*
PUBLIC AND BUSINESS ADMINISTRATION	Accounting Finance Management Marketing/Management	Accounting** Administration** Finance***
BYZANTINE AND MODERN GREEK STUDIES	Byzantine and Modern Greek Literature	Modern Greek Philology*** Byzantine Philology***
CLASSICS AND PHILOSOPHY	Classical Studies Philosophy	Classical Studies***
HISTORY AND ARCHAEOLOGY	History and Archaeology	Medieval History and Art***

Note: * Master / ** Ph.D. / *** Master and Ph.D.

DEPARTMENT OF EDUCATION

The mission of the Department of Education is twofold: first, to promote the pedagogical sciences, and, second, to prepare future school teachers. As regards the second part of its mission, the Department has developed three undergraduate programmes leading to degrees in pre-primary education, primary education and psychology. It has also developed five graduate programmes leading to Master and Ph.D. degrees.

Due to the great number of students in the Department, who account for more than 35% of the total university student population, the faculty members have undertaken increased teaching and managerial tasks. Nevertheless, this load has not hindered, in any way, their research and publication activities. Moreover, faculty members have worked productively with colleagues from foreign universities, participated in many international conferences, and organised conferences of high caliber in Cyprus.

Given the breadth of the Department disciplines, the research interests of the faculty members have covered a wide spectrum of areas, including topics related to the psychology, history, philosophy and sociology of education, curriculum studies, and, the didactics of specific areas. More specifically, the research activities of the Department members have concentrated on themes from the following areas:

- Cognitive psychology, educational psychology, and learning theories
- History of education, and sociology of the teaching profession
- Beliefs and attitudes towards, and conceptions about, learning and specific curriculum content areas
- Development of logical and scientific thinking
- Teaching methodology, school organisation and administration, evaluation and assessment.

During the period under review, Department members cooperated with colleagues from several universities in Greece, the UK, Germany, Italy, France, Finland, Switzerland, the USA, Canada and other countries. They organized or participated in international conferences and published books, chapters in collective volumes, and research papers in journals or conference proceedings. At the same time, they participated actively in the educational, cultural, political and social life of the island. The interested reader can find details in the pages ahead.

Finally, it is worth noting that the overall work carried out by the Department members was evaluated by an international committee, whose conclusions were very positive and encouraging.

UNDERGRADUATE STUDIES

Aristoteleio Panepistimio Thessalonikis, Greece, Degree in Mathematics, 1973

POSTGRADUATE STUDIES

Louis Pasteur De Strasbourg, France, DEA en Didactique des Mathématiques, 1980;
Louis Pasteur De Strasbourg, France, Thèse de Doctorat en Didactique des Mathématiques, 1982

PROFESSIONAL SOCIETIES / INTERNATIONAL ORGANISATIONS

Greek Mathematical Society, Greece • Cyprus Mathematical Society, Cyprus (Member of the Council) • Cypriot Pedagogical Society, Cyprus (Chairman of the Council)

EDITORIAL BOARDS

Cahiers de Didactique des Mathématiques (Editeur), Greece, Institut Français de Thessaloniki

Educational Studies in Mathematics, Netherlands, Kluwer Academic Publishers

la matematica e la sua didattica, Italy, Pitagora Editrice Bologna

Diastassi (Member of the Scientific Committee), Greece, Greek Mathematical Society

Scientia Paedagogica Experimentalis (Guest Editor), Belgium, University of Gent

Quaderni di Ricerca in Didattica (Member of the Scientific Committee), Italy, G.R.I.M. University of Palermo

Mediterranean Journal of Mathematics Education (Editor), Cyprus, Cyprus Mathematical Society

RESEARCH INTERESTS

Didactics of Mathematics; History of Mathematics; History of Mathematics Education; Readability of Mathematical Texts

RESEARCH COLLABORATION IN CYPRUS

The development of an electronic performance portfolio for teachers: an instrument for self improvement and evaluation (2001-2003, Cyprus Research Foundation, Partner), Intercollege

MARIA P. ELIOPHTOU-MENON

Lecturer

TEL: 22751012 FAX: 22753702 E-MAIL: melmen@ucy.ac.cy

UNDERGRADUATE STUDIES

University of London, Bedford College, UK, B.A. in Philosophy and Greek, 1982

POSTGRADUATE STUDIES

State University of New York at Albany, USA, Master in Business Administration, 1984;
University of London, Institute of Education, UK, Ph.D. in Education, 1995

PROFESSIONAL SOCIETIES / INTERNATIONAL ORGANISATIONS

British Educational Research Association, UK • British Educational Management and Administration Society, UK • Educational Administration Society of Cyprus, Cyprus • Pedagogical Society of Cyprus, Cyprus • European Higher Education Society, Netherlands • Commonwealth Council for Educational Administration and Management, Commonwealth

RESEARCH INTERESTS

Economics of Education; Educational Policy; Educational Administration

INTERNATIONAL RESEARCH COLLABORATION

Views of in-service and pre-service teachers, regarding organisation and administration of schools, University of Athens (Greece)

PAPERS**Journal Publications**

DEMETRA PITTA-PANTAZI

Lecturer

TEL: 22751948 EXT: 113 FAX: 22753705 E-MAIL: dpitta@ucy.ac.cy

UNDERGRADUATE STUDIES

Pedagogical Academy of Cyprus, Cyprus, B.A. in Primary Education, 1993; National Kapodistrian University of Athens, Greece, B.A. in Primary Education, 1993

POSTGRADUATE STUDIES

University of Warwick, United Kingdom, MSc. in Mathematics Education, 1994; University of Warwick, United Kingdom, Ph.D. in Mathematics Education, 1998

PROFESSIONAL SOCIETIES / INTERNATIONAL ORGANISATIONS

PME (Psychology of Mathematics Education), International • Pedagogical Society of Cyprus, Cyprus • Cyprus Mathematical Society, Cyprus • Educational Association of Cyprus, Cyprus

RESEARCH INTERESTS

Cognitive Development in Arithmetic; The Role of Mathematical Symbolism; Mental Representations in Arithmetic

RESEARCH COLLABORATION IN CYPRUS

Development of tests assessing student's abilities in problem solving through the use of computers, Research Promotion Foundation

INTERNATIONAL RESEARCH COLLABORATION

A framework for mathematics teachers' support, Universities of Thessaly and Patras (Greece)

Development of tests assessing students' abilities in problem solving through the use of computers, Institute for Promoting Research, ETS

FUNDING OF RESEARCH PROJECTS

A framework for mathematics teachers' support, Greek and Cypriot Government

DEPARTMENT OF FOREIGN LANGUAGES AND LITERATURES

The Department of Foreign Languages and Literatures is involved in research in literature and linguistics. In the area of literature, the focus is primarily on the following: literature and globalization studies, comparative literature, the production of postcolonial literature, French poetry of the 19th and 20th centuries, Shakespeare studies, the theme of war and peace in 20th-century literature, American literature, modern critical theory, and the theatre of the 18th and the 19th centuries. Theoretical approaches include postmodernism, the construction of identity by discourses functioning inside as well as outside a literary text, feminism, psychoanalysis, the historicity of theatre, the relationship between the literary text, the construction of space and the production of national and racial identities.

In the area of linguistics the focus is on various issues in theoretical and applied linguistics: sociolinguistic aspects of the relation between English and Greek in Cyprus, sociolinguistic attitudes towards Cypriot Greek, language acquisition in a bi-dialectal context, lexical borrowing, corpus linguistics and its applications to language teaching and the contrastive analysis of English and Greek phonology, syntax and discourse. The Department also has an active interest in translation theory and practice, from the perspective of both linguistics and intercultural dynamics.

Members of the Department coordinate and participate in the research programme "Mediterranean: Ruptures and Continuities" of the University of Cyprus and the University of Lyon II, the European programmes COTEPRA (Comparative Literature, Theory, and Practice) and DIALANG and in a programme for the teaching of foreign languages at the primary level in various European countries. Members also collaborate with scholars at the University of Warwick, UCLA, the Institute of Edinburgh, the British Institute of Psychoanalysis, the University of Stuttgart, the University College London, the Shakespeare Institute, University of Birmingham, the Folger Shakespeare Institute, Washington D.C and the Peace Studies Programme, Georgetown University, Washington D.C. The Department has formed an association within the European Society for the Study of English (ESSE). A well-equipped linguistics laboratory has also been established to serve multiple research objectives.

DEPARTMENT OF SOCIAL AND POLITICAL SCIENCES

Research at the Department of Social and Political Sciences covers a wide range of topics related to Cypriot society from an international perspective, as well as harmonisation policies concerning Cyprus and the European Union.

The research activities of the Department include the following: the Cyprus problem, Cypriot economic culture, the Greek diaspora, ethnicity, human rights, international organisations, the European Union and European cooperation in the Mediterranean context and contemporary social problems, namely, the relationship between tourism and crime in Cyprus, use and trafficking of illegal drugs in schools, the reintegration of marginalised groups, aiming to increase the youths' prospects of placement in the labour market, sociology of work, sociology of technology and social memory, representations of the past.

DEPARTMENT OF TURKISH STUDIES

One of the main aims of an academic community is the transmission of knowledge, which constitutes the goal of a long and arduous scientific preparation and process. However, the production of knowledge, through which the academic community justifies its existence and consolidates its prestige, remains the most important goal. The publications of its members constitute the result of their research endeavours. The list of publications of the academic staff of the Department is indicative of these.

Parallel to the above, the Department organizes symposia and conferences in conjunction with corresponding institutions of Cyprus and other countries, participates with papers of its members in international conferences, organises lecture series, participates in advisory boards of scientific periodicals, etc.

The uniqueness of the Department of Turkish Studies in the Greek world, as well as the breadth and variety of subjects and fields, means that the members of the faculty have a number of additional responsibilities. These are further increased due to the particular circumstances of divided Cyprus. This is evidenced also by the research projects, which are carried out in co-operation with Cypriot or foreign academic institutions, funded by the University of Cyprus or other organizations.

The research projects in progress can be summarized as follows:

- Linguistics: "Research and linguistic study of the archival material of the Ottoman period, with particular emphasis on Karamanlidika" and "Historical and dialectological investigation of the effect on Cyprus of the language reform of 1928 in Turkey", "Greek-Turkish linguistic influences".
- History and Politics: "History of the Ottoman Empire", "The process of disintegration and the acceptance of new political ideologies in the Ottoman Empire in the 19th and 20th centuries", "The History of Turkey", "Greek-Turkish relations", "Cyprus during the Ottoman period", "Ottoman sources of the history of Cyprus", "The Turkish Cypriot press as a source for the history of Cyprus", "The History of the Turkish Cypriots", "The role of religion in the Balkans and Cyprus", "Middle East and Cyprus", "Education and society. The educational systems of the Middle East", "The history of Armenia in the period of the Turcomans and in the early Ottoman period", "Islamic architecture", "The creation of independent states as a result of the dissolution of the Soviet Union and its effects on Cyprus".

DEPARTMENT OF CHEMISTRY

In this brief introduction, I would like to refer to the contribution of this Department to Cypriot society and culture. The 8 members of academic staff of this Department have published 54 papers in refereed international Journals in the years 1999-2001 corresponding to 2.4 papers per annum per member. Additionally 38 more papers were presented in refereed conferences, with more in local and non-refereed conferences, giving a publication rate of 5.5. Members of the Department are partners in projects funded by the European Union as well as by Cypriot bodies, in addition to funding for research received from the University. The figures mentioned above are not in full agreement with the data presented in this volume, as far as the Department of Chemistry is concerned, since they include publications which are not included in this volume. The above figures were based on practices followed in the field of Chemistry.

The Department has other non-fundamental-research activities, as follows:

- (1) Collaboration with local industry and other bodies for the carrying out of applied research with direct or indirect application to Cyprus.
- (2) Provision of consultancy services to local industry.
- (3) The Department has organized short courses for industry on the use of nmr spectroscopy, as well as other meetings addressing secondary schoolteachers.
- (4) Members of the Department have participated actively in the preparation of the Cypriot participants of the International Chemistry Olympiad.
- (5) The Department has opened its laboratories to visits from secondary schools in an effort to inform them of the importance of chemistry to everyday life and the Cypriot economy and industry.
- (6) Members of the Department have appeared in front of Parliamentary Committees to offer expert advice, and have delivered lectures as part of the Aglantzia and Larnaca Open Universities.

I hope that this brief outline has shown the diversity and intensity of the activities of the Department of Chemistry.

DEPARTMENT OF COMPUTER SCIENCE

The Department of Computer Science attaches major importance to research, since through this it accomplishes one of its foremost missions and at the same time it enables it to contribute to the development of the local industry and, more generally, of the society at large. The research interests of the Department vary from purely theoretical and foundational topics to applied development where, to the extent possible, this applied research is aimed to be directly useful to the local community of Cyprus.

Over the last three years, the Department has been continuing and strengthening its many collaborations with other universities and research institutions all over the world, expanding its research into new areas. The general research areas of the Department include: Parallel and Distributed Systems and Computation, High-Speed Communication Networks, Internet Technologies, Concurrent Systems, Mobile Computing, Computer Architecture, Intelligent Systems, Medical Informatics and Telemedicine, Multimedia Systems, Formal Methods for Specification, Artificial and Computational Intelligence and Software Engineering. Part of this work is financed through European research projects, the Planning Bureau of Cyprus and the local industry.

Our Department has also developed an intensive activity around the general theme of Information Society Technologies (IST). On this theme, its recent success in participating in several IST European research projects under the 5th Framework Programme of the European Union has opened up new avenues for research and collaboration with European universities and research institutes. Much of this research is linked with the effort of the Department to contribute to the task of shaping and implementing a national strategy on Information Society and to alert local industry and organizations on related development perspectives. It is expected that these fruitful research activities will be further intensified through new European and other collaborations.

During the period covered by this publication, the Department of Computer Science has co-organised the following international conferences:

1. International Conference on Reengineering Cyprus for the Digital Age, 17-19 December 1999, Nicosia
2. 10th IEEE Electrotechnical MELECON 2000 Mediterranean Conference 28-31 May 2000, Limassol
3. 4th International Conference on Coordination Models and Languages (COORDINATION 2000), 11-13 September 2000, Limassol
4. 7th International Conference on Constraint Programming, 26 November – 1 December 2001, Paphos
5. 17th International Conference on Logic Programming, 26 November – 1 December 2001, Paphos
6. 8th Panhellenic Conference on Informatics, 8 – 10 November 2001, Nicosia

After its first ten years of operation our Department is now poised to enter a new phase of research activity where its many newly founded research laboratories will operate at the new campus of the University.

UNDERGRADUATE STUDIES

National Technical University of Athens, Greece, Diploma in Electrical Engineering, 1988

POSTGRADUATE STUDIES

Princeton University, NJ, USA, M.A. in Computer Science, 1991; Princeton University, NJ, USA, Ph.D. in Computer Science, 1994

PROFESSIONAL SOCIETIES / INTERNATIONAL ORGANISATIONS

Technical Chamber of Greece, Greece • Association for Computing Machinery, USA
• IEEE - Computer Society, USA

RESEARCH INTERESTS

Parallel Processing; Distributed Systems; Internet Technologies; Performance Evaluation; Mobile Agents

RESEARCH PROGRAMMES (Funded by Univ. of Cyprus)

Cognitive Development Tests, 1999-2002

RESEARCH COLLABORATION IN CYPRUS

DITIS, 1999-2001, CYTA, PASYKAF
HERMES (2001-2002), WINMOB TECH

INTERNATIONAL RESEARCH COLLABORATION

CROSSGRID, Universities and Organizations in Europe (Europe)
 WEBC-MINE
 APART2, Universities in Europe (Europe)
 EMISPHERE, Universities and Organizations in Europe and the Mediterranean (Europe)

FUNDING OF RESEARCH PROJECTS

CROSSGRID, Coordinator for Cyprus, European Commission
 HERMES - ERACE, Coordinator, RPF (Cyprus)
 DITIS, RPF (Cyprus)
 APSIFAE, RPF (Cyprus)
 WEB.MINE, Coordinator (Greece)
 EMISPHERE, Coordinator for Cyprus, European Commission

CONSULTANCIES

Public Power Corp., Greece, Internet Security

CHAPTERS IN BOOKS

M. Dikaiakos and G. Samaras, Performance Evaluation of Mobile-Agent Systems. Issues and Approaches, *Performance Engineering. State of the Art and Current Trends*, R. Dumke et al (Eds), Springer Verlag, 148-166, 2001

PAPERS

Journal Publications

M. Dikaiakos and A. Stassopoulou, Content Selection Strategies for the Periodic Prefetching of WWW Resources via Satellite, *Computer Communications*, Vol. 24, Issue 1,1, 93-104, 2001

Conference Publications

- M. Dikaiakos and G. Samaras, A Performance Analysis Framework for Mobile-Agent Systems, *First Annual Workshop on Infrastructure for Scalable Multi-Agent Systems, The Fourth International Conference on Autonomous Agents 2000, Lecture Notes in Computer Science*, Wagner and Rana (Eds), Springer, Vol. 1887, 180-187, 2001
- M. Dikaiakos, A Theoretical Framework for Analyzing Satellite-based Web Multicasting Services, *Proceedings of the 6th IEEE Symposium on Computers & Communications*, IEEE-Computer Society, Hammamet, Tunisia, 425-431, 2001

YANNIS DIMOPOULOS

Assistant Professor

TEL: 22892227 E-MAIL: yannis@ucy.ac.cy

UNDERGRADUATE STUDIES

Athens University of Economics, Greece, B.Sc. in Computer Science, 1987

POSTGRADUATE STUDIES

Athens University of Economics, Greece, Ph.D. in Computer Science, 1992

RESEARCH INTERESTS

Artificial Intelligence and Knowledge Representation; AI Planning; Nonmonotonic Reasoning; Constraint Satisfaction

PAPERS

Conference Publications

Alexander Bockmayr and Yannis Dimopoulos, Integer Programs and Valid Inequalities for Planning Problems, *Recent Advances in AI Planning, 5th European Conference on Planning, ECP'99*, Springer, Durham, UK, 239-251, 2000

Yannis Dimopoulos et al, Finding Admissible and Preferred Arguments Can be Very Hard, *Proceedings of the Seventh International Conference on the Principles of Knowledge Representation and Reasoning, KR'2000*, Morgan Kaufmann Publishers, Breckenridge, Colorado, USA, 53-61, 2000

Yannis Dimopoulos et al, Preferred Arguments are Harder to Compute than Stable Extension, *Proceedings of the Sixteenth International Joint Conference on Artificial Intelligence, IJCAI'99*, Morgan Kaufmann Publishers, Stockholm, Sweden, 36-43, 1999

PARASKEVAS EVRIPIDOU

Associate Professor

TEL: 22892230 FAX: 22339062 E-MAIL: skevos@ucy.ac.cy

UNDERGRADUATE STUDIES

University of Southern California, USA, B.Sc. in Electrical Engineering, 1985

POSTGRADUATE STUDIES

University of Southern California, USA, M.Sc. in Computer Engineering, 1986;
University of Southern California, USA, Ph.D. in Computer Engineering, 1990

PROFESSIONAL SOCIETIES / INTERNATIONAL ORGANISATIONS

IEEE Computer Society, USA • ACM SIGARCH, USA • IFIP Working Group 10.3, USA

RESEARCH INTERESTS

Internet Technologies; Network Computing and Meta-Computing; Java-Powered Tools for Mobile Worker; Real-Time and Large-Scale Simulations and Visualization; Architecture; Compilers and Network Technologies for Parallel Processing Multi-Threading; Computer Aided Weather Forecasting; Mobile Agents for Parallel Processing and Metacomputing

RESEARCH COLLABORATION IN CYPRUS

Computer Aided Weather Forecasting, Cyprus Weather Forecasting Services

INTERNATIONAL RESEARCH COLLABORATION

Multithreaded Architectures, University of Southern California (USA)
 eCommerce & eBusiness, Athens University of Economics and Business and Cyberce
 Greece
 Mobile Computing/Mobile Agents, University of Ioannina (Greece)
 Environmental Computing, University of Athens and ITC Greece

FUNDING OF RESEARCH PROJECTS

Wiring Smart Enterprises in the Digital World through Process Orchestration, IST (European Union)
 Universal Exchange for Pan-European Higher Education plus Cyprus, IST (European Union)
 Time2Learn, IST (European Union)

RESEARCH COLLABORATION IN CYPRUS

Computer-Aided Meteorology, Cyprus Meteorological Services
 Computer-Aided Diagnosis of Neuromuscular Disorders, Cyprus Institute of Neurology and Genetics, Nicosia General Hospital
 Prognostic Factors for Breast Cancer, Cyprus Institute of Neurology and Genetics, Nicosia General Hospital
 Gynecological Cancer Diagnostic Telepathology and Teleconsultation Network, General Hospital (Paphos & Nicosia)
 Texture Analysis of Atherosclerotic Carotid Plaque, Cyprus Institute of Neurology and Genetics

INTERNATIONAL RESEARCH COLLABORATION

HEALTHNET: Health Telematics Training Network, Universities and Research Organisations in Europe
 ACSRS: The Value of Non-Invasive Investigations in Identification of Individuals with Asymptomatic Carotid Stenosis at Risk of Stroke, Universities and Research Organisations in Europe
 EMERGENCY-112: An Integrated Portable Medical Device for Emergency Telemedicine, Universities and Research Organisations in Europe
 TELEGYN: Development of Novel Techniques and Neural Network Models for Medical Imaging: Application in Breast Cancer Diagnosis, Universities and Research Organisations (Greece, Cyprus)
 CJIS: Cultural Journeys in the Information Society, Universities and Research Organisations in Mediterranean Countries
 Travelling: Training Virtual Environment for Life-Long Learning in Biomedicine, Universities and Research Organisations in Europe
 PROPRACTITION: Continuing Professional Development Concerning General Practitioners, Universities and Research Organisations in Europe

FUNDING OF RESEARCH PROJECTS

- HEALTHNET: Health Telematics Training Network, European Commission (European Union)
- ACSRS: The Value of Non-Invasive Investigations in Identification of Individuals with Asymptomatic Carotid Stenosis at Risk of Stroke, European Commission, Planning Bureau (European Union, Cyprus)
- EMERGENCY-112: An Integrated Portable Medical Device for Emergency Telemedicine, European Commission, Planning Bureau (European Union, Cyprus)
- TELEGYN: Development of Novel Techniques and Neural Network Models for Medical Imaging: Application in Breast Cancer Diagnosis, General Secretariat of Research, Planning Bureau (Greece, Cyprus)
- CJIS: Cultural Journeys in the Information Society, European Commission (European Union)
- Travelling: Training Virtual Environment for Life-Long Learning in Biomedicine, European Commission, Leonardo da Vinci Programme (European Union)
- PROPRACTITION: Continuing Professional Development Concerning General Practitioners, European Commission, Leonardo da Vinci Programme (European Union)

ANNA PHILIPPOU

Lecturer

TEL: 22892245 FAX: 22339062 E-MAIL: annap@cs.ucy.ac.cy

UNDERGRADUATE STUDIES

University of Oxford, UK, B.A. in Mathematics and Computation, 1992

POSTGRADUATE STUDIES

University of Warwick, UK, M.Sc. in Parallel Computers and Computation, 1993;
University of Warwick, UK, Ph.D. in Computer Science, 1996

PROFESSIONAL SOCIETIES / INTERNATIONAL ORGANISATIONS

Association of Computing Machinery (ACM), USA • European Association of Theoretical Computer Science, EATCS, Europe

RESEARCH INTERESTS

Concurrency Theory and its Applications; Mobile and Probabilistic Systems; System Specification and Verification; Modeling and Performance Analysis of Probabilistic Systems

INTERNATIONAL RESEARCH COLLABORATION

Formal Methods for Reliable Critical-System Software, University of Pennsylvania (USA)
Mobile Computation, University of Oxford (UK)
Formal Methods for Software Systems, University of Warwick (UK)

FUNDING OF RESEARCH PROJECTS

Efficiency and Performance of Distributed Systems, Cyprus Planning Bureau
Development of Computer-Based Tests for Problem-Solving Evaluation, Cyprus Planning Bureau
Evaluating the Efficiency of Networks with Quality of Service Guarantees, Cyprus Planning Bureau

ANDREAS PITSILLIDES

Associate Professor

TEL: 22892230 **FAX:** 22339062 **E-MAIL:** Andreas.Pitsillides@ucy.ac.cy

UNDERGRADUATE STUDIES

University of Manchester, Institute of Science and Technology (UMIST), UK, B.Sc. in Electrical and Electronic Engineering, 1980

POSTGRADUATE STUDIES

Swinburne University of Technology (SUT), Australia, Ph.D. in High Speed Multimedia Networks, 1993

PROFESSIONAL SOCIETIES / INTERNATIONAL ORGANISATIONS

IEEE Institute of Electrical and Electronic Engineering, USA • International Federation for Information Processing (IFIP) Working Group, Performance of Communication Systems, WG 6.3., International

RESEARCH INTERESTS

Fixed and Wireless Integrated Services Networks (including mobile, ad-hock, TCP/IP, GSM/GPRS/UMTS/WAP and ATM); Computational Intelligence in Fixed and Wireless Networks; Formal Control Theory for Fixed and Wireless Networks; Internet Technologies and their Application in Wireless e-Services, e.g. in Tele-Healthcare; Resource Allocation in Fixed and Wireless Networks; Network Survivability; Wireless e-services

RESEARCH PROGRAMMES (Funded by Univ. of Cyprus)

ERIS Electronic roads in the Information Society

RESEARCH COLLABORATION IN CYPRUS

Pilot for the provision of multimedia services via ADSL, Cyprus Telecommunications Authority

DITIS: Virtual Collaborative Teams for Cancer Patients, NetU, Cyprus Cancer Society

INTERNATIONAL RESEARCH COLLABORATION

Integrated Congestion Control in Fixed and Mobile Networks, University of Southern California, Monash University (USA, Australia)

FUNDING OF RESEARCH PROJECTS

- DITIS - Home Based Healthcare Service, Research Promotion Foundation (Cyprus)
- CJIS -Cultural Journeys in the Information Society, European Commission (European and Mediterranean countries)
- Q-MED, European Commission (European and Mediterranean countries)
- GEANT, European Commission (European countries)
- e-MINDER, European Commission (Cyprus, Spain, Poland)
- ENLARGE, European Commission (European and Balkan countries)
- EUNITE, European Commission (European countries)
- HERMES, Research Promotion Foundation (Cyprus)
- Research Promotion Foundation (Cyprus)
- WIN - Wireless Internet Network, Research Promotion Foundation (Cyprus, Greece, Israel, Romania)

CONSULTANCIES

Cyprus Government, Department of Information Services, Cyprus, The Government Internet, Intranet, and Extranet Service; Cyprus Government, Department of Information Services, Cyprus, Internet Security; Cyprus Development Bank (CDB), Cyprus, Information Technology as an Instrument of Change and Growth

DEPARTMENT OF MATHEMATICS AND STATISTICS

This edition coincides with the 10 year anniversary of the University and of the Department of Mathematics and Statistics. During the last 10 years the Department has carried out important research activity in a wide range of pure mathematics, applied mathematics and statistics. Members of the Department cooperate and participate in research programmes with other Universities and research centres. Beyond the academic arena, the Department of Mathematics and Statistics has research partnerships with public and private organizations in Cyprus and abroad. The research output of the Department is of high quality, published in top journals.

The quality and quantity of publications compares favourably with that of respectable Departments of Mathematics and Statistics at very competitive Universities overseas. The total number of publications by members of the Department in the last 10 years exceeds 400. The research record of the Department proves that the faculty, in addition to teaching and administration, are active in research and in the advancement of the Mathematical Sciences. An important development in the last three years is the further involvement of graduate students in seminars and publications, and above all in original research.

The ongoing research activities of the Department cover various areas of Mathematics like Algebra, Geometry, Analysis, Mathematical Physics, Numerical Analysis, Probability and Statistics.

The Department of Mathematics and Statistics has developed activities in numerous areas, some of which go beyond the traditional mathematical areas of research, for example:

- Modeling of rainfall.
- Computational Oceanography.
- Biomedicine.
- Molecular genetics.

DEPARTMENT OF PHYSICS

Research activities in the Department of Physics cover a wide spectrum in modern physics.

Members of the Department participate in research programmes in collaboration with research centres and universities abroad. Amongst them are:

Demokritos (Greece), CERN, ETH and PSI (Switzerland), GSI, DESY, University of Wuppertal (Germany), MIT, Cornell, Stanford (USA), University of Grenoble (France), University of Toronto (Canada), University of Pisa and INFN (Italy), and various CNRS Laboratories (France).

General areas of research in the Department are: theoretical and experimental nuclear and particle physics, theoretical condensed matter physics, applied physics and theoretical biophysics.

A balanced representation of both fundamental and applied research is of prime importance for physics; among the basic aims of various research programmes in the Department are the development of applications in the areas of high technology, environmental pollution, renewable energy sources, biophysics and environmental and medical applications of nuclear and electromagnetic radiation.

Some of the Departmental activities are funded by the European Union and the Cyprus Research Promotion Foundation, which provide funds for equipment and research collaborators. There is also support from research centres, through use of laboratory equipment and supercomputers.

The Department believes that a broad spectrum of research will enrich teaching as well, exposing students to new developments in Physics, and will also contribute to the technological upgrading and economic development of Cyprus.

UNDERGRADUATE STUDIES

University of Athens, Greece, B.Sc. in Physics, 1980

POSTGRADUATE STUDIES

Yale University, USA, M.Sc. in Physics, 1982; Yale University, USA, M.Ph. in Physics, 1982; Yale University, USA, Ph.D. in Physics, 1986

PROFESSIONAL SOCIETIES / INTERNATIONAL ORGANISATIONS

CERN-CMS, European Laboratory for Particle Physics (Representative of Other Non Member States Countries) • CERN Resources Review Board, European Laboratory for Particle Physics • Hellenic High Energy Physics Society, Greece • Hellenic Physical Society, Greece

RESEARCH INTERESTS

Experimental High Energy Physics; Electron-Positron and Proton-Proton Colliders; Particle Detectors; Electronic Data Acquisition; Analysis and Simulation of Particle

Physics Events; Calibration; Supersymmetry; Higgs; Rare Decays; Unification Theories; Cosmology; Medical Physics; Non-Ionising Electromagnetic Radiation

RESEARCH PROGRAMMES (Funded by Univ. of Cyprus)

International Research Programme in High Energy Physics at the European Laboratory for Particle Physics

INTERNATIONAL RESEARCH COLLABORATION

L3 Experiment, European Laboratory for Particle Physics (CERN), Universities and Research Institutes of the L3 Collaboration

CMS Experiment, European Laboratory for Particle Physics (CERN), Universities and Research Institutes of the CMS Collaboration

Project ΗΜΠΕΔΙΑ, Universities of Athens, Salonika and Thrace (Greece)

CONSULTANCIES

Ministry of Education, Greece, Evaluation of Research Projects; Cyprus Council for the Recognition of Higher Education Qualifications, Cyprus, Evaluation of Degrees

DEPARTMENT OF ECONOMICS

All members of the academic staff are actively engaged in research on topics of local and international interest. Emphasis is placed on producing results of high academic standard, publishable in reputable academic journals. Attention is also focused on the investigation of issues pertaining to the Cyprus economy and its relationship with the European Union. The researchers in the Department collaborate with researchers in top universities and research organizations overseas like Yale University, Board of Governors of the Federal Reserve System, New York University, Princeton University, Stanford University, University of Essex, University College London, Institute for Fiscal Studies, Center of Economic Research (Tilburg University), CESifo (Center for Economic Studies and ifo Institute for Economic Research), European University Institute, Boston College, etc.

A major research programme in the Department focuses on the econometric modeling of time series. Topics in econometrics currently researched in the Department include alternative statistical non-linear heteroskedastic models for speculative prices emphasising the issue of statistical adequacy, multivariate econometric modeling, VAR models and simultaneous equation models of macroeconomic variables, the performance of single equation methods of cointegration for alternative temporal correlation structures of the cointegrating error and the first-difference of regressors, dynamic specifications versus fully modified OLS procedures and the robustness of cointegration methods in cases that the regressors contain roots near unity.

Research is also carried out on issues related to the interplay between macroeconomics and finance, with emphasis on household portfolio behaviour and the economics of aging. In the context of this research programme, current research focuses on methods for calibrating and computing solutions to models of household portfolio behaviour, and on the effects of departures from expected utility maximization and of borrowing constraints. Research on consumer economics includes the theoretical development and empirical application of demand systems for the analysis of consumer behaviour and welfare. With regard to aggregate consumption, emphasis is placed on microfoundations and among the questions investigated is whether liquidity constraint models with prudent agents who are facing undiversifiable labour income risk can explain the observed regularities in aggregate data.

In relation to producer behaviour there is ongoing research in the Department aiming at the theoretical and empirical analysis of the effects of infrastructure and publicly financed capital on productivity. Research interests in the area of firm behaviour include product differentiation, price discrimination and quality choice, antitrust issues, the determinants of exporting activity and productivity gains from exporting. Research in the area of international trade (theory and policy) concentrates on the economics of integration, international factor mobility and optimal commercial policies under various forms of trade restriction, trade policy, foreign aid and the environment. In this context researchers in the Department investigate the effects of tax reforms implemented in Cyprus in anticipation of European Union entry.

Research is also pursued on topics of special interest to Cyprus, for example: (a) the total factor productivity in various sectors of the Cyprus economy and comparison with EU and other countries, (b) the effects of the Turkish invasion on the economy of Cyprus and alternative ways of distributing the economic burden equally among people, (c) the cost of labour accidents, (d) the competitiveness of the Cyprus tourist product and (e) the management of water resources. The Central Bank of Cyprus funds a research programme to create a large database on portfolios of Cyprus households.

DEPARTMENT OF PUBLIC AND BUSINESS ADMINISTRATION

For the academic staff of the Department of Public and Business Administration, research is an activity of the highest importance. The criteria we have set ourselves in order to assess the research output of our Department are the same as those prevailing in the international academic community. We aspire to excellence not only at a local or regional level but, especially, at an international level. All members of staff are strongly encouraged to publish in international journals. We are proud of the strong research culture we have developed in our Department, a culture which is manifested in the quality and quantity of publications by our members of staff. Moreover, we have maintained and deepened the already close collaborations we have with researchers and universities in Europe and North America. Formal research collaborations are established with faculties at the Wharton School of the University of Pennsylvania, Harvard Business School, and Boston University in the United States, the University of Toronto in Canada, Imperial College and Warwick University in England, the Technion in Israel, Bocconi and Bergamo in Italy, and Erasmus in the Netherlands.

As you will see in more detail below, the research interests of our members of staff are quite diverse, covering all subdisciplines in Management Studies.

DEPARTMENT OF BYZANTINE AND MODERN GREEK STUDIES

The research activities of the Department of Byzantine and Modern Greek Studies cover a wide spectrum of philological and linguistic research ranging from the fundamental traditional approaches to the modern theoretical and explanatory methods of reading literary and other texts.

In this context the Department runs four research projects in the areas of: Byzantine Philology (creation of a database for the publication of the Miscellanies by Theodora's Masochists), Modern Greek Studies (critical edition of the Chronicle by Leontios Machairas and an archive of Cypriot literature), and Literary Theory and Comparative Literature (dictionaries of critical terms). In these research projects as well as in many research activities, the members of staff have collaborated with a number of research centres and foreign universities, such as the Universities of Athens, Thessaloniki, Crete (Greece), Göteborg (Sweden), Sorbonne (Paris IV), Rome (Italy) London (King's College), Oxford (U.K.) New York, Institut National des Langues et Civilisations Orientales (I.N.A.L.C.O. Paris), Hellenic Institute of Byzantine and Postbyzantine Studies (Venice), National Research Foundation of Greece, Centre for the Greek Language (Thessaloniki), Literary and Historical Archive of Greece (ELIA-Athens), Cultural Foundation of the National Bank of Greece (Athens).

The research interests of staff members as well as the targets set for undergraduate and post graduate programmes of study have prompted the organisation of a number of important international conferences, such as Neograeca Medii Aevi IV and the conferences on the work of G. Seferis, C.P. Cavafy, D. Solomos, A. Embiricos and A. Sicelianos as well as one-day conferences, e.g. on editorial problems concerning medieval and renaissance literary texts or on the work of C. Montis.

Finally, it should be noted that within the framework of the Postgraduate Programme in Modern Greek Literature (running since 1997), Departmental seminars take place where members of the staff, postgraduate students and research fellows give lectures on a variety of topics.

DEPARTMENT OF CLASSICS AND PHILOSOPHY

The Department of Classics and Philosophy is one of the more recent Departments of the University of Cyprus (it was established in 1996, the year of the foundation of the Faculty of Letters), and its research activities, because of the nature of the subject-matter studied, cover a wide range of scholarly fields in the study of the ancient Greek and Latin world and of philosophy. More specifically, the general areas in which members of the Department undertake research projects are Ancient Greek literature, Latin Literature, Historical Linguistics, and Philosophy.

The research interests of the academic members of staff of the Department are as follows: **Ancient Greek Literature:** Homer, archaic lyric poetry, classical and hellenistic tragedy, Aristophanes, historiography, philosophical and political theories of the 5th and the 4th centuries BC, collections of moral maxims, ancient theories on language, hellenistic literature, Ancient Greek religion, sports in Ancient Greece, and the anthropology of the ancient world. **Latin literature:** Augustan poetry, society and civilisation in the time of Augustus, Roman poetry and its influence on modern poetry, Latin funeral speeches, Roman historiography, Greco-Roman political thought, Roman grammarians and scholars. **Linguistics:** Ancient Greek dialects, koine. **Epigraphy:** syllabic writing in the Greek speaking world, Greek inscriptions in Macedonia and in Cyprus. **Methodology and History of Classical Literature:** papyrology, palaeography, textual criticism and editing of ancient texts, I/T and classical studies, technology and education. **Philosophy:** The Presocratics, Ancient Greek Philosophy (Plato, Aristotle), political philosophy, moral philosophy with emphasis on applied ethics and the ethics of life, German idealism.

Members of the Department participate in research projects conducted by the C.N.R.S. in France, the National Research Foundation in Greece, the Centre for the Greek Language in Greece, the Association Internationale d' Etudes du Sud-Est Européen, the University of Heidelberg, the Deutsche Forschungsgemeinschaft (Universities of Munich and Cologne), the Katholieke Universiteit Leuven in Belgium, and the University of Cyprus. Some of the research activities of members of staff in this Department are supported by foreign research centres and are sponsored by research projects of the European Union, and of organisations that are based both in Cyprus and abroad.

Moreover, in the broader context of the SOCRATES Programme, of which the Department is an active participant, or of bilateral agreements with other Universities, the academic staff in this Department are appointed as members of examining committees evaluating postgraduate work (MLitt, PhD) produced by foreign students, who conducted their research during their stay at the University of Cyprus and were supervised by members of teaching staff in the Department.

Some members of the academic staff are on the advisory board for certain scholarly publishers: Göttinger Beiträge zur Sprachwissenschaft (Germany), Skepsis (Athens), Philosophical Inquiry (Thessaloniki). They also participate, often as invited speakers, in the most authoritative international conferences of their research areas, they publish books and articles in international journals, and they edit collected papers and proceedings of international conferences.

During the period covered by the present edition, this Department has organised five international conferences, symposia or scholarly meetings on classical literature, philosophy, and Greek linguistics; the proceedings of these meetings either have already appeared or are in press:

- "Humankind and the Cosmos", International Conference in Philosophy, 11-12.6.1996 (Diotima 29, 2001, Athens).
- 4th International Conference on Greek Linguistics, Nicosia, September 17-19, 1999 (Greek Linguistics. Proceedings of the 4th International Conference on Greek Linguistics, Thessaloniki 2001, 728 p.).
- "The Origins of European Scholarship", 6-8.4.2000.
- 2nd International Conference in Philosophy: "Presocratic Philosophy", 5-6.4.2001.
- "Hellenistic Philosophy. The Peripatos: Clearchus of Soloi", 2-3.12.2001.

The Department has also organised several lectures given by distinguished speakers from abroad and by its academic staff.

DEPARTMENT OF HISTORY AND ARCHAEOLOGY

Research at the Department of History and Archaeology focuses on the fields of History and Archaeology. The Department has inaugurated research programmes and projects in which postgraduate research assistants and postgraduate students are participating. Their aim is original research, with an emphasis on Cyprus in relation to the rest of the Greek world and the Eastern Mediterranean.

Apart from the archaeological research programmes and projects that are being carried out by the Archaeological Research Unit (A.R.U.), (see below), there are also the following:

- Grecia-Venezia: Tristate (Greece-Italy-Cyprus) programme of the European Union for the protection, conservation and display of monuments dating to the Baroque period.
- Excavation of Lechaion near Corinth: Publication programme of the excavation of the early Christian basilica.
- Documents of the Latin Church of Cyprus, 1195-1378: With funding from the Cyprus Research Centre.
- The Opera Omnia of Peter Aurioli: In collaboration with the University of Copenhagen.
- Sidi Khrebish: Publication programme of the Roman wall paintings of Berenice (Benghazi, Libya - Society for Libyan Studies, London).
- The Troodos Archaeological and Environmental Survey Project: a multidisciplinary research project in collaboration with the University of Glasgow and the University of Oregon. The principal aims of the project are to investigate the history and development of human activity and settlement in the area of the north-western foothills of the Troodos Mountains; to examine the archaeometallurgy and history of agriculture using a wide range of interdisciplinary techniques; and to investigate the origins and development of social complexity as expressed in the entire landscape.
- "Neocles Kyriazis" Programme: A bibliography programme to research and record the Greek publications 1878-2000 which refer to the Cyprus issue and the contemporary history of Cyprus. This programme functions in the context of the Cyprus Foundation for the Promotion of Research.
- The Dormant Memory: A research tutorial programme about the political, social and economic situation in Cyprus during the last years of Ottoman rule and the first period of British occupation. At the centre of the research is the old cemetery of Nicosia (Saint Spyridon) where the tombs of known personalities of the period are situated.

Maria Iacovou

Chairperson

ARCHAEOLOGICAL RESEARCH UNIT

In order to fulfil its research goals, the A.R.U. collaborates with various institutions both in Cyprus and abroad. In Cyprus, the Unit collaborates with Government Departments, such as the Department of Antiquities, the Department of Geological Survey, etc., as well as with other University of Cyprus Departments. Overseas, the A.R.U. collaborates with scholars from European and American universities and research centres.

The choice of project is based on the personal specialisations of the members of the Unit, and on the need for further research on some less well-studied aspects of Cypriot Archaeology.

The main research programmes and activities are:

- Collaboration with the "Group de Recherches Franco-Hellénique sur la Mosaïque Antique en Grèce" of the Ecole Française d' Athènes and the CNRS of France.
- Study of the Post-Byzantine Art of Cyprus, in the frame of the edition of "History of Cyprus" by the Foundation of Archbishop Makarios III.
- Several research projects have dealt with the artifacts (mostly pottery) from the Excavations of the House of Orpheus in Paphos. This involves the study and preparation of the material for publication.
- An Inventory and Research into the Traditional Pottery of Cyprus (18th-20th cent.).
- Excavation of a Late Bronze Age smelting workshop of Politico Phorades, in collaboration with the University of Glasgow.
- The scientific analysis of the archaeometallurgical finds collected during "The Sydney Cyprus Survey Project".
- Study of the stone tools for the publication of the Late Bronze Age miners' village at Apliki Karamallos.
- Study and publication of the ancient glass objects in the Pierides Collection, Larnaca.
- "Traditional Craftsmen and wood-related professions in the Aegean, Thrace and Cyprus." Two-year programme "Thrace-Aegean-Cyprus." Collaborators: The Scientific and Educational Foundation of the Cyclades, the Institute of Cultural and Educational Technology, the National Hellenic Foundation and the University of Cyprus.
- Digitized Archaeological Atlas of Palaipaphos 2002-2003: Advanced Technologies in Archaeological Research, Department of History and Archaeology/Archaeological Research Unit), Institute of Mediterranean Studies-Foundation of Research and Technology, Greece.

APPENDICES

- I. RESEARCH COLLABORATION IN CYPRUS
- II. INTERNATIONAL RESEARCH COLLABORATION
- III. FUNDING OF RESEARCH PROJECTS
- IV. CONSULTANCIES
- V. KEYWORD INDEX FOR RESEARCH INTERESTS
- VI. ACADEMIC STAFF INDEX

Appendix I lists the Cypriot institutions with which the academic staff have research cooperation; this concerns mainly applied research in topics mostly related to socioeconomic problems of Cyprus.

Appendix II lists the universities and research institutions internationally with which the academic staff cooperate in research.

Appendix III presents institutions in Cyprus and abroad which have funded research projects of members of the academic staff.

Appendix IV lists organisations to which the academic staff of the University offer consultancy services.

The data comprising these appendices were produced from the personal research profiles of the members of academic staff listed in this publication and, hence, do not constitute a full picture of the research collaboration of the University of Cyprus.

Nevertheless, the data appearing in these four appendices give a good indication of the calibre and breadth of research cooperation and affiliation between the University of Cyprus and Cypriot society and the international academic community.

Appendix V presents a keyword index referring to the research interests of the members of academic staff listed in this publication.

In Appendix VI there is an index of academic staff in alphabetical order by surname.

Cyprus Research Centre, Cyprus (2 references)

Cyprus Government, Cyprus (3 references)

General Secretariat of Research, Greece (2 references)

Greek Government (Greece)

Ministry of Education and Culture, Cyprus (2 references)

Ministry of Industry, Energy and Technology (Greece)
Ministry of Labour and Social Insurance (Cyprus)
Ministry of Macedonia-Thrace -Ministry of the Aegean, Greece (2 references)
Plannig Bureau, Cyprus (11 references)

SEMIPUBLIC / NON-PROFIT ORGANISATIONS

A. G. Leventis Foundation, Cyprus (4 references)
A. G. Leventis Foundation (France)
Cyprus Broadcasting Corporation (Cyprus)
Cyprus Stock Exchange (Cyprus)
Cyprus Tourism Organisation (Cyprus)
Cyprus Tourism Organization, Cyprus
Agrotourism Organisation (Cyprus)
Holy Monastery of Kykkos, Cyprus (2 references)
Muscular Dystrophy Association, MDA (USA)
National Association of Cypriot Primary Teachers, POED (Cyprus)
Research Promotion Foundation, Cyprus (22 references)
Secondary School Teachers' Union, OELMEK (Cyprus)

PRIVATE ORGANISATIONS

Banca Della Svizzera Italiana
Bank of Cyprus (Cyprus)
Cyprus Race Track Organization (Cyprus)
Digital Equipment Corporation (USA)
Digital Equipment International (Switzerland)
Humboldt-Stiftung (Germany)
J & P Group of Companies, Cyprus (2 references)
Laiki Group Cultural Centre
NatWest Bank (UK)
NetU Consultants Ltd

Parsytec Computers GmbH (Germany)
Parsytec Computers (USA)
Popular Bank of Cyprus, Cyprus (2 references)
TMR-Livintax (Germany)

OTHER ORGANISATIONS

BECTA (UK)
EPSRC, UK (2 references)
Laboratoire de Musées de France (France)
Levelhulme Trust UK (UK)
Numismatic Museum (Greece)
NATO (USA)
Osterreichische Akademie der Wissenschaften (Austria)
Royal Society, United Kingdom (2 references)
The Gamma Foundation (Lugano, Switzerland)

IV. CONSULTANCIES

PUBLIC ORGANISATIONS - CYPRUS

Central Bank of Cyprus, Evaluation of Job Applicants
 Committee of Letters, Proposals for Literary Awards
 Cyprus Development Bank (CDB), Information Technology as an Instrument of Change and Growth
 Cyprus Republic, Department of Information Services, Internet Security
 Cyprus Republic, Department of Information Services, The government Internet, Intranet, and Extranet Service
 Cyprus Republic, Research
 Cyprus Republic, Consultancy Bioethics Committee
 Cyprus State Foundation for Scholarships, Scholarships for Under-and Post-graduate Students
 Ministry of Communications and Works, Planning Bureau of Cyprus, National Strategy for the Information Society in Cyprus
 Ministry of Communications and Works, Think Tank on Wireless Telecommunication Issues
 Ministry of Defence, Selection of Officers
 Ministry of Education and Culture, Committee for the University Entry Examinations (2 references)
 Ministry of Education and Culture, Consultant for Teacher Supervision
 Ministry of Education and Culture, Evaluation of the Unified Lyceum
 Ministry of Education and Culture, Council for the Recognition of Higher Education Qualifications (KYSATS), Degree Accreditation (3 references)
 Ministry of Education and Culture, Elementary Physical Education
 Ministry of Education and Culture, Evaluation of Cyprus Educational Mission
 Ministry of Education and Culture, Evaluation of Programmes, Development of Curricula
 Ministry of Education and Culture, Evaluation of Research Projects
 Ministry of Education and Culture, National Standards in Education

Ministry of Education and Culture, Programme Evaluation (2 references)
 Ministry of Education and Culture, Reconstructing the High School Physical Education Curriculum
 Ministry of Education and Culture, Special Committee for the Enrichment of Public Buildings with Works of Art, Member of Selection Committee
 Ministry of Education and Culture, Tertiary Education Association and Certification Council, SEKAP (2 references)
 Ministry of Education and Culture, Textbook Writing for Primary Mathematics
 Ministry of Education and Culture, Working Team for the Language Levels in Secondary Education
 Ministry of Education and Culture, Writing Mathematics Textbooks
 Ministry of Foreign Affairs / Ministry of Health, National Delegate to EMBC
 Ministry of Health, Advisory Committee on Bioethics
 Ministry of Justice and Public Order, Consulting Committee for the State Archives
 Paphos General Hospital, Statistical Analysis of Medical Data
 Planning Bureau, Information Technology in Cyprus
 Planning Bureau, Member Technical Committee, COST
 Planning Bureau, National Contact Point for IST
 Planning Bureau, National Strategy in e-Commerce

SEMIPUBLIC AND OTHER ORGANISATIONS - CYPRUS

Astarti Development, Hotels and Tourism
 Costas and Rita Severis Foundation, Member of Administrative Council
 Costas Argyrou Foundation, Member of Advisory Board
 Cypriot Studies Society, Conference Consultant
 Cyprus Academy of Public Administration, Lectures / Consultancies

Cyprus Airways and other Organisations, Human resource management tools for recruitment, selection and development of employees in numerous organizations
 Cyprus Institute of Neurology and Genetics, Statistical Analysis
 Cyprus Neuroscience and Technology Institute, Research Center
 Cyprus Radiotelevision Authority, Development and Implementation of Regulations
 Institute for Eurodemocracy, Research and Training
 KIMEDE, International Relations
 K2-Optronics Inc., Construction of a fiber based laser system for telecommunications purposes
 Monagri Foundation, Member of Board of Trustees
 Pierides Foundation, Larnaca, Member of Administrative Council
 Popular Bank of Cyprus, Training workshops to managerial and non-managerial staff on the process of managing negotiations effectively
 Research Centre, Holy Monastery of Kykkos, Director
 ROG Consulting, Finance
 Science Tec, PPE Light Detectors
 TASNI Environmental Engineers, Air Pollution Monitoring
 TERRA Computers, High-Performance Computing for Financial Applications
 Various Family Businesses in Cyprus, Family Business Consulting

ORGANISATIONS OVERSEAS

Achepa Hospital, Statistical Analysis of Medical Data
 Achepa Hospital, Statistical Analysis of Multiple Sclerosis Data
 AcNielsen, Technical Consultant
 AT&T Labs-Research, Research Consultancy
 Banca Della Svizzera Italiana, Scenario Analysis for Multicurrency Bond Portfolios
 Bank of Cyprus Cultural Foundation, Member, Board of Directors, Consultant
 Board of Studies of the Conservation of Wall Painting Department, Courtauld Institute of Art, University of London, Member of Board/ Advisory Board, Evaluation of Study Programmes

Centre for Education and Industry of Warwick University, Evaluation of the European project on "Enterprise and its Transfer to Combat Social Exclusion" (ENTRANCE)
 European Commission, Future and Emerging Technologies Unit, Research Secretariat
 European Commission, Review and Evaluation of Projects and Research Proposals
 EU, Auditor for the 4th Framework, Action Line IV2.1, IV2.4
 EU, Evaluator for the 5th Framework, Action Line IV2.1, IV2.4
 McKinsey and Co., Inc, Corporate Finance Advisory
 Ministry of Education of Greece, Evaluator of EU-funded Projects
 Ministry of Education of Greece, Evaluator of Post Graduate Curriculum Programmes
 Ministry of Education of Greece, Programme Evaluation
 Paladini Fresco Project, The Valletta Rehabilitation Project, Malta, Member of Advisory Board
 Panel of Assessors for the Australian Research Council of the Department of Employment, Education and Training, Member / Evaluation of Research Proposals
 Public Power Corp., Greece, Internet Security Reactive Monitoring Mission: Byblos (World Heritage Site) ICOMOS, Consultant on World Heritage Matters
 The Commonwealth, Judge, Commonwealth Writers Prize Eurusia Region, 2000
 Unesco, Member of the National Committee Valetta Rehabilitation Project and the Getty Conservation Institute, Los Angeles

V. KEYWORDS FOR RESEARCH INTERESTS

A

Abductive Reasoning	104
Achievement Evaluation	35
Action Research	26
Ad. Corais	201
Adsorption	92
AI Planning	102
Alexandrian Scholarip	206
Algebraic Combinatorics	136
Amphora Trade	222
Analogical Reasoning	47
Analysis of Systems	122
Analysis of Tax Reform	171
Analyst Forecasts	184
Ancient Greek Philosophy	209
Ancient Linguistics	206
Ancient Medicine	222
Anthropology and Literature	61
Anticancer	86
Antiquity Reception	52
Applied Discourse Analysis	53
Applied Microeconomics	172
Applied Philosophy	205
Approximation Theory	136
Aquatic Chemistry	91
Aquisition, Mother Tongue	57
Archaeometallurgy	220
Archaeometry	220
Archaeometry and Art	150
Architecture	103
Argumentation	104
Armenia	80
Artificial Intelligence	102, 111
Artificial Neural Networks	122
Assessment-Baseline	28
Assessment Value-added	28
Attitudes	13
Attitudes, Mathematics	39
Attribution Theory	24
Autobiography	201

B

Balkan History	81
Balkans	80
Balkan Turkology - Dialects	79
Banking	186
Basic-Chemistry	86
Beliefs, Mathematics	39
Bicultural Education	57
Bilingual Education	57
Bilingualism	57
Biological Tunneling Phenomena	159
Biomolecular Simulations	148
Biomolecular Structure-Function	148
Biomolecular Structure Stabilization	148
Biomolecules	159
Biosignal Analysis	103
Biostatistics	129
Block Copolymers	92
Bragg Gratings	153
Bulk Morphologies	92
Business Cycles	165
Byzantine Art	226
Byzantine Literature	195
Byzantium - Greece	226
Byzantium - West	226

VI. ACADEMIC STAFF INDEX

AGAPIOU-JOSEPHIDES KALLIOPE (<i>Lecturer</i>)	Social and Political Sciences	.68
AGAPITOS A. PANAGIOTIS (<i>Professor</i>)	Byzantine and Modern Greek Studies	.195
ALEXANDROU M. CONSTANTIA (<i>Associate Professor</i>)	Physics	.147
ANDREOU ELENA (<i>Lecturer</i>)	Economics	.165
ANGELATOS DIMITRIS (<i>Associate Professor</i>)	Byzantine and Modern Greek Studies	.196
ANTONIADOU ELENA (<i>Lecturer</i>)	Economics	.166
ARCHONTIS GEORGIOS (<i>Lecturer</i>)	Physics	.148
BAIDER HELENE FABIENNE (<i>Assistant Professor</i>)	Foreign Language and Literature	.51
BILIAS G. YANNIS (<i>Assistant Professor</i>)	Economics	.166
CHARALAMBOUS CHRISTAKIS (<i>Professor</i>)	Public and Business Administration	.179
CHARITOU ANDREAS (<i>Professor</i>)	Public and Business Administration	.179
CHEHAB MAY (<i>Lecturer</i>)	Foreign Languages and Literatures	.51
CHRISTOFIDES CONSTANTINOS (<i>Associate Professor</i>)	Physics	.150
CHRISTOFIDES C. TASOS (<i>Associate Professor</i>)	Mathematics and Statistics	.127
CHRISTOU P. CONSTANTINOS (<i>Associate Professor</i>)	Education	.13
CHRYSAANTHOU YIORGIS (<i>Assistant Professor</i>)	Computer Science	.99
CLERIDES K. SOFRONIS (<i>Lecturer</i>)	Economics	.167
DAMIANOU A. PANTELIS (<i>Associate Professor</i>)	Mathematics and Statistics	.128
DEMETRIOU N. KYRIACOS (<i>Assistant Professor</i>)	Social and Political Sciences	.65
DEMETRIOU P. ANDREAS (<i>Professor</i>)	Education	.15
DIAKIDOY N. IRENE-ANNA (<i>Assistant Professor</i>)	Education	.17
DIKAIKOS D. MARIOS (<i>Assistant Professor</i>)	Computer Science	.100
DIMOPOULOS YANNIS (<i>Assistant Professor</i>)	Computer Science	.102
EFSTATHIOU M. ANGELOS (<i>Assistant Professor</i>)	Chemistry	.85
ELIOPHOTOU-MENON P. MARIA (<i>Lecturer</i>)	Education	.30
EVRIPIDOU PARASKEVAS (<i>Associate Professor</i>)	Computer Science	.102
FOKIANOS KONSTANTINOS (<i>Assistant Professor</i>)	Mathematics and Statistics	.129
FOTIOU S. STAVROS (<i>Associate Professor</i>)	Education	.18
GAGATSI CHR. ATHANASIOS (<i>Professor</i>)	Education	.20
GEORGIU C. GEORGIOS (<i>Associate Professor</i>)	Mathematics and Statistics	.130
GEORGIU N. STELIOS (<i>Associate Professor</i>)	Education	.24
