<b>Preface</b> .....	5
<b>Population</b>	
<i>growth rate, ageing, age dependency ratio, life expectancy, marriages, divorces</i> .....	6
<b>Labour Market</b>	
<i>employment, productivity, gender pay gap, labour cost, unemployment</i> .....	8
<b>Living Standards</b>	
<i>inequality, risk of poverty, people in jobless households</i> .....	12
<b>Education</b>	
<i>youth attainment level, life-long learning, early school leavers, tertiary education, expenditure, pupil/teacher ratio</i> .....	14
<b>Health</b>	
<i>physicians, hospital beds, length of stay, infant mortality, expenditure</i> .....	16
<b>Economy</b>	
<i>GDP, public finance, prices</i> .....	18
<b>Environment</b>	
<i>waste, inland freight transport, emissions</i> .....	20
<b>Energy</b>	
<i>energy intensity, dependence rate, energy consumption, electricity</i> .....	22
<b>Information Society</b>	
<i>internet access, broadband connection, use of the internet, e-commerce, e-government</i> .....	24
<b>Science and Technology</b>	
<i>human resources, R&amp;D researchers, science and technology graduates, high-tech exports, patents</i> .....	26
<b>Innovation</b>	
<i>summary innovation index, innovative enterprises</i> .....	27
<b>Research and Development</b>	
<i>expenditure</i> .....	28

## Notes

- Data for Cyprus refer to the government controlled area only, i.e. excluding the area of the Republic occupied by the Turkish troops since 1974.
- Source of data:  
Eurostat's website (<http://ec.europa.eu/eurostat>) – unless otherwise stated.
- Data extraction period: October 2008

## Symbols

..	=	not available
%	=	percent
000's	=	thousands
mn	=	million
kg	=	kilogram
kgoe	=	kilogram of oil equivalent
toe	=	tonnes of oil equivalent

## **Preface**

*This publication was first issued in 2006, two years after the accession of Cyprus to the European Union (EU), with the aim to demonstrate the position of Cyprus compared to the other EU countries through various statistical indicators covering several aspects of the economy and the society.*

*The second issue of CYPRUS IN THE EU SCALE contains some additional indicators in order to give a broader picture of the socio-economic situation within the EU27.*

*The data are presented in tables and diagrams. Evaluations are made for the relative position of Cyprus in relation to both the EU average and the rest of the EU countries. For clarification purposes, the definitions of most of the indicators are available at the bottom of each table and diagram.*

*G. Chr. Georgiou  
Director  
Statistical Service*

## Population

	Total population	Annual growth rate	Share of population aged		Age dependency ratio
			65+	under 15	
	000's (1.1.2008)	% (2008/2007)	% 2007		2007
<b>EU-27</b>	<b>497.482</b>	<b>0,5</b>	<b>16,9</b>	<b>15,8</b>	<b>48,6</b>
Austria	8.332	0,4	16,9	15,6	48,2
Belgium	10.667	0,8	17,1	17,0	51,7
Bulgaria	7.640	-0,5	17,3	13,4	44,3
<b>Cyprus</b>	<b>795</b>	<b>2,0</b>	<b>12,3</b>	<b>17,9</b>	<b>43,3</b>
Czech Republic	10.381	0,9	14,4	14,4	40,4
Denmark	5.476	0,6	15,3	18,6	51,4

France	63.753	0,6	16,2	18,6	53,3
Germany	82.222	-0,1	19,8	13,9	50,8
Greece	11.215	0,4	18,6	14,3	48,9
Hungary	10.045	-0,2	15,9	15,2	45,2
Ireland	4.420	2,4	11,1	20,3	45,8
Italy	59.618	0,8	19,9	14,1	51,5
Latvia	2.271	-0,5	17,1	14,0	45,0
Lithuania	3.366	-0,6	15,6	15,9	45,9
Luxembourg	484	1,6	14,0	18,3	47,8
Malta	411	0,7	13,8	16,7	43,9
Netherlands	16.404	0,3	14,5	18,1	48,3
Poland	38.116	0,0	13,5	15,8	41,3
Portugal	10.618	0,2	17,3	15,5	48,6
Romania	21.529	-0,2	14,9	15,4	43,4
Slovakia	5.401	0,1	11,8	16,1	38,9
Slovenia	2.026	0,8	15,9	14,0	42,6
Spain	45.283	1,8	16,6	14,5	45,3
Sweden	9.183	0,8	17,4	17,0	52,3
United Kingdom	61.186	0,6	16,0	17,6	50,6

- ★ Cyprus has the third lowest population of the 27 European Union countries ranking only above Malta and Luxembourg.
- ★ The population of Cyprus accounts for 0.2% of the total population of the EU-27.
- ★ Cyprus had the highest growth rate of population in 2008.
- ★ The age dependency ratio for Cyprus is among the lowest in the EU (5th lowest).

*Population:* All people having their usual residence in the country (at least 12 months).

*Age dependency ratio* shows the number of dependants (population aged 0-14 and over the age of 65) to the population aged 15-64. It represents the ratio of people of non-working age to the number of those of working age.

	Life expectancy at birth		Total fertility rate	Mean age of woman at childbearing	Marriages per 1000 persons	Divorces per 1000 persons
	males	females				
	years 2006					
Austria	77,2	82,8	1,40	29,2	4,3	2,4

Malta	77,0	81,9	1,41	:	6,1	:
Netherlands	77,7	82,0	1,70	30,6	4,5	2,0
Poland	70,9	79,7	1,27	28,3	6,5	1,7
Portugal	75,5	82,3	1,35	29,5	4,4	2,4
Romania	69,2	76,2	1,31	26,9	8,8	1,7
Slovakia	70,4	78,4	1,24	27,9	5,1	2,3
Slovenia	74,5	82,0	1,31	29,6	3,2	1,4
Spain	77,7	84,4	1,38	30,9	4,6	1,7
Sweden	78,8	83,1	1,85	30,5	5,2	2,3
United Kingdom	77,1	81,1	1,84	29,2	5,2	2,6

- ★ Cyprus and Sweden have the highest life expectancy at birth for males in the EU.
- ★ Cyprus has the highest proportion of marriages in the EU.

**Life expectancy at birth:** The number of years a newborn baby is expected to live if mortality in the various age-groups remains at the level of the period on which the life expectancy was computed.

**Total fertility rate:** The mean number of children that would be born alive to a woman during her lifetime if she were to pass through her childbearing years conforming to the fertility rates by age of a given year.

## Labour Market

	Total employment <sup>1</sup>	Employment growth	Employment in

Sweden	4.521	2,3	2,2	22,7	75,1
United Kingdom	31.547	0,7	1,4	17,7	80,8

<sup>1</sup> Domestic concept - ESA

- ★ Cyprus recorded the 5th largest employment growth rate (3,2%) in 2007.
- ★ Persons employed in agriculture in Cyprus accounted for 4,5% of the total employment and rank in the middle places among the EU countries while the share of employment in industry with 20,3% is the 6th lowest. Employment in services is the 7th highest along with Sweden absorbing 75,1% of the persons employed.

### Labour productivity per person employed, 2007 (EU-27=100)

★ Cyprus performance of labour productivity stands at 86,1% of the EU-27 average.

*Labour productivity* is measured by dividing the GDP in PPS by the total employment.

## Labour Market

	Total	Employment rate		of older workers	Gender pay gap (M-F)/M % 2006	Labour cost index 2000=100 2007
		Female	Male			
		% 2007				
<b>EU-27</b>	<b>65,4</b>	<b>58,3</b>	<b>72,5</b>	<b>44,7</b>	<b>15</b>	<b>128,2</b>

Portugal	67,8	61,9	73,8	50,9	8	126,7
Romania	58,8	52,8	64,8	41,4	10	423,6
Slovakia	60,7	53,0	68,4	35,6	22	182,1
Slovenia	67,8	62,6	72,7	33,5	8	160,7
Spain	65,6	54,7	76,2	44,6	13	136,2
Sweden	74,2	71,8	76,5	70,0	16	127,7
United Kingdom	71,5	65,5	77,5	57,4	21	139,4

- ★ The Total Employment Rate and Female Employment Rate for Cyprus are close to the target of the Lisbon strategy for 2010, i.e. 70% and 60% respectively. Cyprus ranks among the first EU member states in respect of these ratios.

**Employment Rate:** It represents the persons in employment as a percentage of the population of working age (15-64 years).

**Gender Pay Gap:** The difference between men's and women's average gross hourly earnings as a percentage of men's average gross hourly earnings.

**Labour Cost Index:** The index shows the increase or decrease in the labour cost per actual hour worked.

	Total	Unemployment rate		Youth unemployment rate %	Long term unemployment rate % of active population 2007
		Females	Males		
		%			
	2007				
<b>EU-27</b>	<b>7,1</b>	<b>7,8</b>	<b>6,6</b>	<b>15,3</b>	<b>3,1</b>
Austria	4,4	5,0	3,9	8,7	1,2

Luxembourg	4,1	5,1	3,4	15,5	1,2
Malta	6,4	7,6	5,8	13,8	2,6
Netherlands	3,2	3,6	2,8	5,9	1,3
Poland	9,6	10,4	9,0	21,7	4,9
Portugal	8,1	9,7	6,7	16,6	3,8
Romania	6,4	5,4	7,2	20,1	3,2
Slovakia	11,1	12,7	9,9	20,3	8,3
Slovenia	4,9	5,9	4,0	10,1	2,2
Spain	8,3	10,9	6,4	18,2	1,7
Sweden	6,1	6,4	5,8	19,1	0,8
United Kingdom	5,3	5,0	5,6	14,3	1,3

- ★ The Unemployment Rate for Cyprus was 4,0% in 2007, well below the EU-27 rate (7,1%).
- ★ The Long-Term Unemployment Rate for Cyprus was 0,7% in 2007 recording the 2nd lowest rate, well below the EU-27 average (3,1%).

**Unemployment Rate:** Represents unemployed persons as a percentage of the labour force.

**Youth Unemployment Rate:** Unemployed persons less than 25 years of age as percentage of the labour force in corresponding age group.

## Living Standards

	Income quintile share ratio	Gini coefficient	Risk of poverty rate for persons aged 65 years and over	People living in jobless households	
	2006	2006	% 2006	aged 0-17 %	aged 18-59
<b>EU-27</b>	:	:	:	9,4	9,3
Austria	3,7	25	16	6,1	7,6
Belgium	4,2	28	23	13,5	12,5
Bulgaria	3,5	24	18	12,9	10,0
<b>Cyprus</b>	<b>4,3</b>	<b>29</b>	<b>52</b>	<b>3,7</b>	<b>4,5</b>
Czech Republic	3,5	25	6	7,9	6,5
Denmark	3,4	24	17	5,0	6,9
Estonia	5,5	33	25	7,3	6,0
Finland	3,6	26	22	4,9	9,5
France	4,0	27	16	9,8	10,9
Germany	4,1	27	13	9,3	9,5
Greece	6,1	34	26	3,9	8,0
Hungary	5,5	33	9	14,0	11,8
Ireland	4,9	32	27	11,2	7,8
Italy	5,5	32	22	5,8	9,1
Latvia	7,9	39	30	8,6	7,1
Lithuania	6,3	35	22	6,9	6,3
Luxembourg	4,2	28	8	4,0	7,5
Malta	4,2	28	21	8,4	6,9
Netherlands	3,8	26	6	5,9	6,5
Poland	5,6	33	8	9,5	11,7
Portugal	6,8	38	26	4,8	5,8
Romania	5,3	33	19	9,4	9,6
Slovakia	4,0	28	8	10,5	8,8
Slovenia	3,4	24	20	2,5	6,0
Spain	5,3	31	31	5,0	6,0
Sweden	3,5	24	12	:	:
United Kingdom	5,4	32	28	16,7	10,9

- ★ Cyprus has the highest risk of poverty among persons aged 65 and over in the EU.
- ★ Cyprus has the second lowest percentage of children aged 0-17 living in jobless households.
- ★ Cyprus has the lowest percentage of people aged 18-59 living in jobless households.

**Income quintile share ratio:** The ratio of total income received by the 20% of the population with the highest income (top quintile) to that received by the 20% of the population with the lowest income (lowest quintile). Income must be understood as equivalised disposable income.

**Gini coefficient:** Measure of (income) inequality or concentration. If incomes were equally distributed the Gini coefficient would be 0. At the other extreme if the richest unit received all income the Gini coefficient would be 100. An increase in the Gini coefficient thus represents an increase in inequality.

### Risk of poverty rate, 2006

**Risk of poverty rate:** The share of persons with an equivalised disposable income below the risk-of-poverty threshold, which is set at 60% of the national median equivalised disposable income (after social transfers).

## Education

	Youth educational attainment level	Life-long learning	Early school leavers	Public expenditure on education	Population aged 25-64 with tertiary education	Tertiary education students studying in another EU-27 country
	% 2007	% 2007	% 2007	% GDP 2005	% 2006	% of all students 2006
<b>EU-27</b>	<b>78,1</b>	<b>9,7</b>	<b>14,8</b>	<b>5,0</b>	<b>22,8</b>	<b>2,6</b>
Austria	84,1	12,8	10,9	5,4	17,6	4,6

Sweden	87,2	32,0	12,0	7,0	30,4	2,7
United Kingdom	78,1	26,6	13,0	5,5	29,4	0,7

- ★ The youth educational attainment level in Cyprus is among the highest in the EU (8th highest- 85,8%) and is higher than the EU-27 average (78,1%).
- ★ Lifelong learning participation in Cyprus has progressively increased during recent years (2000: 3,1%, 2005: 5,9%, 2006: 7,1%, 2007: 8,4%) and is close to the EU-27 average (9,7%).
- ★ Early school leavers in Cyprus have decreased compared to previous years (2000: 18,5%, 2005: 18,1%, 2006: 16,0%, 2007: 12,6%) and are favourably below the EU-27 average (14,8%).
- ★ Public expenditure on education in Cyprus accounts for 6,9% of GDP which is among the highest in the EU (3rd highest) and lies above the EU-27 average (5,0%).
- ★ The share of population aged 25-64 with tertiary education qualifications is among the highest in the EU (5th highest - 30,5%) and is well above the EU-27 average (22,8%).
- ★ Cyprus has an exceptionally high percentage (53,2%) of tertiary education students studying in another EU country compared to the EU-27 average (2,6%).

### Pupil/teacher ratio in primary education, 2006

- ★ In Cyprus there were 16,8 pupils per teacher in primary education which is one of the highest ratios in the EU. The best performing countries with less than 11 pupils per teacher are Lithuania, Italy, Portugal, Greece and Hungary.

**Youth educational attainment level:** The percentage of the population aged 20 to 24 having completed at least upper secondary education.

**Life-long learning:** The percentage of the adult population aged 25 to 64 participating in education and training.

**Early school leavers:** The percentage of the population aged 18-24 with at most lower secondary education and not in further education or training.

<sup>3</sup> Public sector hospitals only

- ★ Cyprus has one of the lowest proportions of physicians and hospital beds per 100.000 population compared to the other member states, with Greece and Lithuania having the highest proportions of physicians and hospital beds respectively.
- ★ Germany has the highest health expenditure as % of GDP with Cyprus having one of the lowest along with Romania, Estonia and Lithuania.

### Public expenditure on health as percentage of total expenditure on health, 2005

- ★ Cyprus has the second lowest share of public expenditure on health (43,2%) to the total health expenditure with Luxembourg having the highest (90,7%). However Cyprus is one of the countries that have not yet established a General Health Scheme.

**Physician:** A person who has completed studies in medicine at the university level. The number of physicians at the end of the year includes all active physicians working in health services (public or private).

**Average length of stay:** The total number of occupied hospital bed-days divided by the total number of admissions or discharges.

**Infant mortality:** The ratio of the number of deaths of children under one year of age during the year to the number of live births in that year.

- ★ Cyprus exhibits a real growth rate of the Gross Domestic Product which is higher than the EU average.
- ★ The economy of Cyprus is based largely on services. The tertiary sector in Cyprus, with 78,8%, possesses one of the biggest shares in the EU.

**Gross Domestic Product (GDP):** The value of all goods and services produced in a country during a calendar year less the value of any goods or services used for their production.

**PPS:** Technical currency conversion rates that convert economic indicators expressed in national currencies to a common currency, which equalises the purchasing power of different national currencies and thus allows meaningful comparison.

**Real GDP Growth Rate:** The percentage annual change of GDP at constant prices.

★ In 2007 Cyprus recorded a Fiscal Surplus of 3,5% of GDP. This positive development is attributed to the increased public revenues. At the same time, debt recorded a significant decrease falling from 64,6% (2006) to 59,5%. This is the first time in five years Cyprus achieves a reduction of public debt below 60% of GDP.

**The General Government Debt** comprises currency, bills and short-term bonds, other short-term loans and other medium-and-long-term loans and bonds.

**Fiscal Deficit:** The gap between the governments total spending and the sum of its revenue receipts and non-debt capital receipts. It represents the total amount of borrowed funds required by the government to completely meet its expenditure.

**Harmonised Index of Consumer Prices (HICP):** The measure of price changes for the purpose of assessing price stability in EU. The HICP was developed in order to fulfill the requirement for a consumer price index constructed on a comparable basis, taking into account differences in national definitions.

**Inflation Rate:** The annual percentage increase in the price of goods and services as measured by the HICP.

## Environment

- ★ The per capita generation of municipal waste in Cyprus is one of the highest in the EU and well above the EU-27 average.
- ★ The greatest proportion of municipal waste is landfilled, indicating that in Cyprus the recovery of waste still lies at low levels.

**Municipal Waste:** Waste collected by or on behalf of municipalities. It includes household waste and similar waste, as well as waste originating from commerce, trade, small businesses, office buildings and institutions (schools, hospitals, government buildings).

**Municipal Waste Landfilled:** Waste that is deposited into or onto land including specially engineered landfills and temporary storage of over one year on permanent sites.

**Municipal Waste Incinerated:** Waste that is treated in an incineration plant as defined in Article 3(4) or a co-incineration plant as defined in Article 3(5) of the Directive on the incineration of waste (Directive 2000/76/EC of 4 December 2000).

## Greenhouse Gas Emissions (in CO<sub>2</sub> equivalents<sup>1</sup>) 2006

<sup>1</sup> Emissions of the 6 greenhouse gases covered by the Kyoto protocol are weighted by their global warming potentials and aggregated to give total emissions in CO<sub>2</sub> equivalents. The base year used to present the emissions indices is 1990 for the non-fluorinated gases (CO<sub>2</sub>, CH<sub>4</sub> and N<sub>2</sub>O) and 1995 for the fluorinated gases (HFC, PFC and SF<sub>6</sub>).

<sup>2</sup> Data refer only to CO<sub>2</sub>, CH<sub>4</sub> and N<sub>2</sub>O.

- ★ The total greenhouse gas emissions for Cyprus are the highest in the EU and well above the EU-27 average.

## Energy

Spain	211	81,4	97	3,3	5.650	17,3
Sweden	188	37,4	33	5,6	3.567	48,2
United Kingdom	193	21,3	151	3,8	10.013	4,6

- ★ Cyprus has the highest energy dependence rate in the EU at 102,5% in 2006. The value is greater than 100% because net imports exceed gross consumption; energy products are placed in stocks and not used in the year of import.
- ★ The proportion of electricity generated in Cyprus from renewable sources is negligible (0,04%), well below the national target set at 6% by 2010.

**Energy intensity of the economy:** A measure of the amount of energy needed to produce one unit of economic output. A reduction in energy intensity means that less energy is needed to produce the same output and is thus related to energy efficiency.

### Energy consumption breakdown by fuel, 2006

### Final energy consumption by sector, 2006 tonnes of oil equivalent

- ★ Nearly all (96,7%) the energy consumed in Cyprus originates from crude oil and petroleum products.
- ★ The transport sector accounts for half of the energy consumed in Cyprus, compared to only 31,5% in the EU.

**Energy dependence rate:** Energy dependency shows the extent to which an economy relies upon imports in order to meet its energy needs.

**Final energy consumption:** This indicator expresses the sum of the energy supplied to the final consumer's door for all energy uses. It is the sum of final energy consumption in industry, transport, households, services, agriculture, etc.

**Renewable energy production** includes biomass, hydropower, geothermal energy, wind energy and solar energy.

- ★ The level of Internet access in Cyprus is almost the lowest in the EU, 22nd and 23rd for households and enterprises respectively.
- ★ Broadband penetration in Cyprus is very low compared to the other EU countries both for households and for enterprises (ranking 24th and 21st respectively).

**Households:** All households having at least one member in the age group 16 to 74 years.

**Enterprises:** Enterprises having 10 employed persons or more.

**Broadband connection:** xDSL(ADSL,SDSL, etc), Cable TV network (cable modem), UMTS mobile phone, or other (e.g. satellite, fixed wireless).

- ★ Internet usage in Cyprus (35%) is well below the EU average (51%).
- ★ 31% of enterprises in Cyprus are using the Internet compared to 38% in the EU-27.
- ★ e-commerce is not very popular neither in Cyprus (6%) nor in the EU-27 (14%).

*Individuals regularly using the Internet:* Individuals aged 16 to 74, who access the Internet, on average, at least once a week.

- ★ More than 40% of the labour force in Cyprus is employed in a science and technology occupation.
- ★ About 21,4% of the total exports of Cyprus is made up of high technology products, a share well above the EU-27 average.

**High-tech exports:** This indicator is calculated as the share of exports of all high technology products to total exports. High technology products are defined as the sum of the following products: aerospace, computers, office machinery, electronics, instruments, pharmaceuticals, electrical machinery and armament. The total exports for the EU do not include the intra-EU trade.

**Patents:** Data refer to applications filed directly under the European Patent Convention or to applications filed under the Patent Co-operation Treaty and designated to the European Patent Office (Euro-PCT).

## Innovation

	Summary innovation index	Enterprises with (technological) innovation activities  % of all enterprises	Innovative enterprises which received public funding for innovation activities  % of innovative enterprises 2004	Innovative enterprises that introduced organisational and/or marketing innovations  % of innovative enterprises 2004
	2007	2004	2004	2004

★ Cypriot enterprises perform well in the area of innovation, with 46,1% of them having introduced an innovation in 2004.

*The Summary Innovation Index* forms part of the European Innovation Scoreboard and has been designed by the European Commission in order to give an "at a glance" overview of aggregate national innovation performance. It is a composite indicator made up of 25 primary indicators.

*Technological Innovation* is a new or significantly improved product (good or service) introduced to the market or the introduction within an enterprise of a new or significantly improved process. Innovations should be new to the enterprise concerned but do not necessarily have to be new to the market.

## Research and Development

	Share of R&D expenditure by sector of performance as % of total expenditure			
	Government	Business enterprises	Higher education	Private non-profit
	2006*

Spain	16,7	55,5	27,6	0,2
Sweden	4,5	74,9	20,4	0,2
United Kingdom	10,0	61,7	26,1	2,2

\* Data are provisional for most of the countries

<sup>1</sup> Reference year 2005

- ★ In most of the EU Member States, the business enterprise sector accounts for more than half of the total R&D expenditure. This is not the case in Cyprus, where the government and higher education sectors have the biggest share.

*Research and Development (R&D)* comprises creative work undertaken on a systematic basis in order to increase the stock of knowledge, including knowledge of man, culture and society, and the use of this stock of knowledge to devise new applications.

### Expenditure on Research & Development as percentage of GDP, 2006

- ★ The EU goals in Research and Development, as defined in the Lisbon Strategy, are to achieve by 2010 a R&D intensity of at least 3% for the EU and to have two thirds of R&D expenditure financed by the business enterprise sector.
- ★ Cyprus is well away from achieving these goals, with a R&D intensity of 0,43% in 2006 and only 16% of R&D expenditure financed by the business enterprise sector.
- ★ However, expenditure on R&D increased in Cyprus on average by more than 17% in absolute terms over the period 2001-2006.

## *More Statistics on Cyprus*

**Further statistical information is available in the following publications of the Statistical Service of Cyprus:**

- ★ **Statistical Abstract**
  - ★ **National Economic Accounts**
  - ★ **Monthly Economic Indicators**
  - ★ **Agricultural Statistics**
  - ★ **Industrial Statistics**
  - ★ **Construction and Housing Statistics**
  - ★ **Wholesale and Retail Trade Statistics**
  - ★ **Transport Statistics**
  - ★ **Imports and Exports Statistics**
  - ★ **Labour Statistics**
  - ★ **Demographic Report**
  - ★ **Health and Hospital Statistics**
  - ★ **Education Statistics**
  - ★ **Criminal Statistics**
  - ★ **Tourism, Migration and Travel Statistics**
  - ★ **Family Budget Survey**
- **Details of the publications issued by the Statistical Service since its establishment are available in the report "Publications Catalogue of the Statistical Service of Cyprus". All paper publications are obtainable from the Printing Office of the Republic of Cyprus and directly from the central offices of the Statistical Service in Lefkosia.**
  - **Data are also available on the Web site of the Statistical Service of Cyprus:**  
<http://www.mof.gov.cy/cystat>

## ***Website of the Statistical Service of Cyprus (CYSTAT)***

<http://www.mof.gov.cy/cystat>

- The website is the main source of statistical information.
- CYSTAT aims, through the website to provide up-to-date, immediate and comprehensive statistical information of Cyprus to all users of such information and also to provide a better public service.
- The website contains the most recent statistical data as well as time series data by subject, all the press releases, information about CYSTAT, the Statistics Law, a publications catalogue and links to websites of Statistical Services of other countries. In addition, the website contains the “Advanced Release Calendar” which is updated every Friday with the dates of CYSTAT’s announcements that are scheduled to be released in the following week.
- The website offers two services, “Alert” and “Online Order”. “Alert” service offers immediate notification via e-mail to the registered users about the availability of new information. “Online Order” is a service with which registered users can order CYSTAT’s publications online.
- Statistical data are categorized in ten Statistical Themes as follows:
  - “Economy”, “Prices and Inflation”, “External Trade”,
  - “Population and Social Conditions”, “Labour”,
  - “Agriculture”, “Industry and Construction”,
  - “Energy and Environment”, “Other”,
  - “Transport, Tourism, Trade, Other Services”.
- The website is user friendly and is available in both Greek and English.

## ***European Statistical Data Support (ESDS)***

- All the information contained on the website of Eurostat (<http://ec.europa.eu/eurostat>) is available free of charge to all users. Amongst other, the website offers access to statistical data contained in Eurostat's databases as well as to the publications of Eurostat in electronic format (pdf).
- Eurostat together with all Member States set up a network of support centers. Their mission is to provide help and guidance to Internet users of European statistical data, thus to all users of Eurostat's website.
- As from January 2005 the Statistical Service of Cyprus (CYSTAT) has set up the Centre of European Statistical Data Support (ESDS) which provides support for the following:
  - Information on availability of data/ publications
  - Verification of data
  - Methodological information
  - Technical support
- Users may contact the ESDS Centre via:
  - CYSTAT's website (<http://www.mof.gov.cy/cystat>) under the section Services / ESDS where they can fill out the predefined form
  - Email: [eustatistics@cystat.mof.gov.cy](mailto:eustatistics@cystat.mof.gov.cy)
  - Telephone: +357-22304584
  - Fax: +357-22661313
- The service is available daily during the working hours of the Cyprus civil service.
